Technical Information

Beater Shaft Design Change

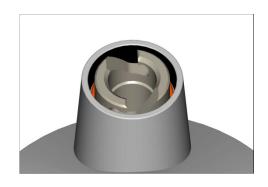

The introduction of more powerful motors and stronger gearboxes on Kenwood kitchen machines (Chef and Major) necessitated a change to the tool shaft and gearbox planet hub, from the original circlip design to a new bayonet type. Cooking Chefs have all been produced from the outset with the bayonet design planet hub.

CIRCLIP TYPE PLANET HUB

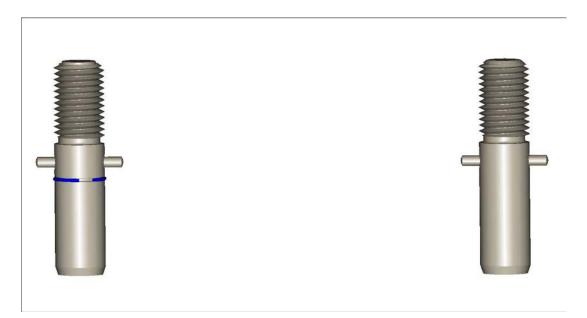

CIRCLIP TYPE SHAFT

NEW DESIGN BAYONET PLANET HUB

NEW DESIGN BAYONET SHAFT

The change from circlip design to bayonet design was progressively implemented through 2008 production, and all new kitchen machines produced now use the new bayonet design.

New improved circlip shafts were also introduced as part of this engineering change to support previous models. These new circlip shafts have a shorter thread length and shoulder that prevents the shaft nut "winding up" and locking the mixing tool onto the planet hub under heavy mixing loads.

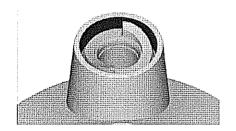

Zubehör Kenwood Küchenmaschinen Major & Chef

Schaft	Chef-Modelle	Major-Modelle
mit Bajonettverschluss (neu)	KW710877	KW710878
ohne Bajonettverschluss (neue Version)	KW711986	KW711987
Originalschaft (nicht mehr erhältlich)	KW675574	KW674579

	Original-Ausführung	Neu mit	ohne Bajonettverschluss
Mixzubehör Chef-Modelle	(nicht mehr erhältlich)	Bajonettverschluss	(neue Version)
Knethaken (Aluminium)	KW186701	KW711981	KW712210
Knethaken (Edelstahl)	KW675570	KW711980	KW712209
K-Haken (Aluminium)	KW602212	KW711985	KW712214
K-Haken (Edelstahl)	KW675582	KW711984	KW712213
Schneebesen (Aluminum, 9-Streben)	KW696392	KW711983	KW712212
Schneebesen (Edelstah, 9-Streben)	KW675568	KW711982	KW712211
Power Schneebesen (4-Streben, Edelstahl)		KW712265	KW711660
Flexi beater	KW710274	KW712263	KW712223

	Original-Ausführung	Neu mit	ohne Bajonettverschluss
Mixzubehör Major-Modelle	(nicht mehr erhältlich)	Bajonettverschluss	(neue Version)
